What is Qaller?

Qaller is the Smartphone app for the Callvoip telephony system. Qaller functions as a remote control: you can set how you want to be reached, personally and on your company number(s). Qaller enables you to control your reachability – whenever and wherever!

Qaller can be used on iPhones with iOS version 9 or up, and Android version 5 or up.

Also, you will need a Callvoip account.

Qaller Plus

You can upgrade your Qaller smartphone app to Qaller Plus: then, it will also function as your office phone, integrated in your smartphone. You can make and receive calls and you can send the office number.

The app uses 4G or WiFi internet to make and receive calls.

Nice features included:

- an internal phone book with actual call status of your colleagues
- you can also transfer calls and start call recording (if enabled for your accounts)

Administrator

When you are logged in as an administrator on Qaller, you can also set the dialplans of your office numbers.

The screenshot shows the Qaller (administrator) app interface. At the top, it says "Qaller (administrator)". Below that is a red header with a user profile picture of a woman, the name "202 Janneke", and the number "202". A gear icon for settings is in the top right. Below the header is a dark section titled "Incoming Call Routing" with a dropdown menu showing "Editing my personal dial plan" and a blue "CLICK!" annotation. Below this are four options: "Follow my original dial plan" (with a red checkmark icon), "Forward to my mobile number" (with a red circle and "CLICK!" annotation), "Forward to my mailbox" (with an envelope icon), and "Forward to: 201 Robert Tijdhof" (with a calendar icon and "Click to select a contact" text). The bottom of the screen shows the Android navigation bar.

Qaller Plus: make and receive calls through internet (WiFi/4G)

To call out with Qaller, you click:

1. Click **Phonebook** and choose: all | mobile | colleagues | dialplans
Choose colleagues, and you will see all **colleagues and their actual call status**.
You can also use the search function.

Enriched internal phonebook

In the colleagues phonebook, you can see all your colleagues and their actual calling status:

Idle
Ringling
Busy

The status is also displayed by the color in front of the name.

Transfer calls

You can transfer Qaller calls. Open the app, press TRANSFER and pick a colleague.

2. Click the **Dialpad icon**  – the Qaller phone appears.
Dial a nummer, or **click and hold** to paste a number from email or whatsapp. Dial a number and Qaller will look for the contact. Press the green button to start a call.

3. Call controls - during a call you have the following call controls:

HOLD
MUTE
SPEAKER
RECORD
KEYPAD
TRANSFER
